

TOWNSHIP OF MANSFIELD

2022 Mansfield Township Beautification Contest

Here's a chance to showcase your artistic talent. The Mansfield Township Green Team, in conjunction with Sustainable Jersey, is looking to create an Efficient Landscape Design in front of the Municipal Building (see attached photo). The goal is an aesthetically pleasing environmental landscape balance.

In 2022, we hope to sponsor a contest with designs appearing on the Township website for residents to vote for their favorite. Before and after photos will highlight the winning landscape and a permanent plaque in front of the building will spotlight the winner's business.

The design should be functional, cost-efficient, and environmentally friendly. A description of the project requirements can be viewed on the Sustainable Jersey website at <https://www.sustainablejersey.com/actions/#open/action/8>. This is for informational purposes only. You will not be responsible to fill out any of the documentation involved in this project.

Below are the project criteria:

- Low maintenance & drought-tolerant native plantings
- Rainscaping to reduce stormwater runoff & improve soil content
- Efficient, environmental balance of native surroundings
- Mulch to retain soil moisture for plantings
- Large boulders or other natural elements may be incorporated for visual effect

The estimate should include materials and labor and an approximate timeline needed for completion of work. The Mansfield Township DPW will handle all maintenance after the project is completed. We will be applying for a grant to fund the project.

Any questions, please call JoAnn at 908-689-6151 Ext. 116.

We look forward to hearing from you.
